MAKSAM Network 2007

After-School Study and Enrichment Centers for
Ethiopian Children in Hadera

The 6th MAKSAM Center is now operational

The Gidon Association was recently approached by the Mercuz Hitnadvut l'Olei Ethiopia (Volunteer Center for Ethiopian Immigrants) Association which had previously tried to run an After School Center similar to **MAKSAM** in the Gazit neighbourhood of Hadera (a neighborhood with a high concentration of Ethiopian families with school-age children). Their request to join forces with **MAKSAM** and for **MAKSAM** to take over their center in Gazit now means that Hadera's three major Ethiopian non-profit associations are now united and working together for the good of the community's children.

The 6th MAKSAM center currently operating in a neighborhood school, caters to approximately 50 children from first to sixth grade.
